

# FRENCHSYS SERVICES FOR INTERNATIONAL SCHEMES

FrenchSys offers multi-brand, multi-technology, multi-channel card acceptance and acquiring services for International Brands wishing to develop and maintain their technical acceptance on the French market.

For the major international card and electronic payment networks and their acquirers on the French market, this means that FrenchSys provides a wide range of services related to:

- Interoperability between international schemes and the French POI network
- Acceptance of payment and withdrawal transactions initiated by the cards of the major payment schemes (including co-badged cards) on French payment terminals, unattended payment terminals, E&M-commerce acceptance points or ATMs

## SOME EXAMPLES OF SPECIFIC FRENCHSYS SERVICES ...

**Functional specifications and acceptance solutions for the French market (integration of scheme requirements: build, upgrades, maintenance)**

**Scheme configuration to set up acquirer terminals (routing tables, EMV configuration, etc.)**

**Integration of scheme requirements for the preparation of approval submission for acceptance solutions on the French market**

**Expertise & Support**

**Analysis of acceptance incidents, coordination regarding the resolution of acceptance issues, etc.**
